

SAMK / Application for research permission

For researches concerning Satakunta University of Applied Sciences (not for theses, which have their own form OP21A)

After completing the application until the signature phase, **send the application as an email attachment to the address tutkimusluvut@samk.fi and inclose your research plan approved by the supervisor.** When collecting research material, remember to inform that research permit has been granted for the research.

Researcher(s):

Researcher's/researchers' email address(es):

Title of research:

Date of research:

Is personal information gathered in the research and is a person register formed of them*? yes no

*Gathering personal information and registration of information mean collecting individual information (such as name, social security number, date of birth) and research information into a register. (Extra information www.tietosuoja.fi). After the research, the research register will be either destroyed or archived without any identifying information.

After sending the application to the address tutkimusluvut@samk.fi, the application returns for your electronic signature approximately within a week.

Electronic signatures of the applicant for a permission and licencer are displayed on the last page of the entire document and its attachments. The contracting parties will receive the signed document by email.
